

Czech Pilsner 12

DRY HOPPED COLD

Founded in 1573, Kutna Hora is still independently owned and operated. With deep roots in the Czech beer scene, Kutna Hora continues to produce the world's finest craft pilsners and lagers, while strictly adhering to traditional Czech brewing methods.

A full-bodied Czech pilsener coming with a dark golden colour and cold dry-hopped with a Czech variety of Kazbek hops. Fulsome malt backbone, lightly spicy with an equally robust Saaz hop profile with further lingering hoppiness from the cold dry-hopping. Finishes crisp and delightful.
