

Czech Dark Lager 12

Founded in 1573, Kutna Hora is still independently owned and operated. With deep roots in the Czech beer scene, Kutna Hora continues to produce the world's finest craft pilsners and lagers, while strictly adhering to traditional Czech brewing methods.

Dark lager brewed using the traditional decoction method from 4 types of malts, which give this beer a dark color, a fuller body, and the characteristic aromas and flavors of chocolate and caramel.
